EFFECT ON THE MARKET OF RUMORS FROM WASHINGTON-POSSIBLE POLICY IN CASE OF FAILURE OF REPEAL

The United States Treasurer received last week from customs, \$2,602,983 from internal revenue, \$2,695,952, and from miscellaneous source \$413,293; total from all \$5,712,228, against \$6, 061,282 in the preceding week. The failing off was a slight increase in miscellaneous receipts which was probably due to seigniorage

ease of \$1,213,665 in the net cash in vaults, excepting the gold balance which again was unusually large loss. Since the beginning the month the Treasury has lost over \$9,-

ade up as follows: A loss in the gold ce of \$4,765,920, by a decrease of \$4,837,to in coin and bullion, less a reduction of certificates and Treasury notes, and in the legal-tender balance of \$1,726,378, by an increase of \$2,821,378 in notes, less an sue of \$1,095,000 of currency certificates. creased by \$1,595,337 and Treasury notes to the unt of \$400,000 were issued in payment for silver bullion, but the sum of \$291,749 was returned in the ordinary course of business, and vas enlarged by \$190,686, and the deposits of lawful money on that account at the end of prices the week amounted to \$20,818,552. The Treasury disbursements have been almost entirely in gold coin, while the stock of paper currency been allowed to increase. The amount of old legal-tender notes, beyond outstanding cerof silver certificates by \$1,434,629, and of silver certificates by \$623,812.
Subjoined is Saturday's statement compared with that of October 7:

Oct. 11. Differences. Cold coin and hallon less vertilitates.

1. S. notes less 85,120,773 Dec. 84,765,920 87,11,933 10,467,771 Inc. 1,726,378

loans showed a weakening tendency, but the by the receivership, and action of the managers demand was not heavy, and in this market the in that respect is undoubtedly wise and judemand was not heavy, and in this market the situation was not materially changed. For short dates some loans were made below 5 per cent, but for four and six months, the rates ranged from 5 to 6 per cent. The city banks were still the final prices of a week ago, prefixed by the average prices of October, 15, 1892: reluctant to make engagements, except for short iods, and then only on the highest grades of ollateral security. In the uncertainty attending financial legislation they evidently preferred to accept low rates on call rather than to lose immediate control of their funds. The banks continued rapidly to cancel loan certificates, and the amount outstanding was reduced by over \$10,000,000. At the same rate it will take not more than a week longer to cancel the entire issue. When that shall have been accomplished if the inflow of money should be maintake not more than a week longer to cancel the entire issue. When that shall have been accomplished, if the inflow of money should be maintained on its recent scale, the money markets will return to an entirely normal condition. There was a trifle more demand for commercial paper, but it came chiefly from out of town institutions and private lenders. Offerings of paper were fairly liberal, but there was no pressure reported from any direction. The price for the best double names was usually 768 per cent. In the European markets there was no discernible change. The Eank of England did not remains at 3 per cent. In the open market, early in the week, the rate of discount was extremely casy at 1% per cent, but it hardened slightly, although the highest rate for spot cash was 1½, and for money to arrive 1% per cent. On the Continent the street rate at Paris remained unchanged at 2½ per cent, but at Berlin was 1500 money to arrive 1% per cent.

strong, even if irregular, at about \$4.8314 and \$100 kg. Miscissima 234 \$4.8514, for long and short sterling bills respectively. Compared with the rates a week ago, this was a recovery of the fractions.

RAILROAD EARNINGS.

"The Financial Chronicle" computes the gross earnings of 131 railroads in September at St. P. & Mani. D. St. P. M. & Mani. D. T. Cont. Pacific.

Total A. & S. M. M. Tolar, Pacific.

Total Pacific. Pacific.

Total Pacific. Pacific.

cent from the same month in the preceding year. The mileage on which these earnings were reported was 96,689, against 94,249 at the same time last year.

The Tribune has printed the gross earnings of forty-one railroad companies or systems for the first week in October. Of the number thirteen companies return gains of \$147,857, or 6.2 per cent, and twenty-eight companies losses of \$558,124, or 15.3 per cent. The whole number shows a decrease of \$410,273, or 6.8 per cent. It has printed also the gross earnings of fifty-seven companies for the fourth week in September. The whole number shows a decrease of \$1,006,844, or 9.8 per cent.

THE WEEK IN WALL STREET. irregular and the increase in business occurred tilling and Cattle Feeding and Chicago Gas were considerably more than one-third of the total were foremost in point of activity amounted to over \$16,000 shares, leaving only 173,000 shares for all the other stocks that were traded in. The manipulation of the industrial stocks was bold, and from a trader's standpoint successful. The extreme advance in Sugar Refining was over 3 per cent, but its final gain was only a large fraction. A still smarter raily occurred in Distilling, and its final advance was 2% per cent. In Chicago Gas the early improvement was not maintained, and although its last price was nearly 1 per cent, above the lowest point, it suffered a loss of 1% per cent. Outside the stocks already mentioned, the movement of prices was downward. The granger stocks were comparatively active and in the week they lost from 2½ to over 3½ per cent. It was evident on several days that these stocks were exposed to aggressive attacks on the part of the bear faction, but the declines falled to bring upon the market large offerings of long stock. The largest decline suffered by any of the leading stocks was 5% per cent, in Louisville and Nashville, which was depressed by sales apparently for European account. Union Pacific sustained a final loss of 3 per cent., although it railied fractionally after the official announcement that the company had sought the protection of the courts.

Apart from the manipulation in the industrial chares which of course, possessed no real sig-916,900 shares, leaving only 173,000 shares
